Printec

The new era of electronic cash register

Adeo POS is a versatile fiscal cash register designed for small and medium-sized enterprises (SMEs). It covers all retail needs in a single solution, with high-quality hardware and software, card and mobile payments, top-level support, and continuous software upgrades. These upgrades ensure compliance with legal changes and alignment with user needs. Adeo POS also maintains a strong regional presence and expertise in fiscalization across Croatia, Slovenia, Montenegro, Serbia, Bosnia & Herzegovina, the Czech Republic, Albania, and Slovakia.

↘ Why?

Adeo POS offers a unique, all-in-one Android-based platform that goes beyond traditional cash register functions. Designed to meet the needs of different business types, it provides a fully integrated system for smooth sales operations. Businesses can accept multiple payment methods, fiscalize transactions, and issue receipts or eInvoices with ease. With its robust, scalable design and adaptability across industries, Adeo POS delivers a reliable, future-ready retail solution.

AdeoPOS

↘ How?

⊕ • Adeo POS Android app for retail, hardware-independent
  • Adeo POS Cloud Portal for backup, administration, reporting, eInvoicing and additional modules
  • Adeo POS API, DLL/JAR for enterprise clients, vending, and M2M segments

↘ What Printec Does

- Multiple jurisdictions (different currencies, legal regulations, tax rates, and calculation methods)
- Multiple fiscalization models (software, hardware, and hybrid)
- Multilingual interface and database support (to cater to a diverse, global user base)
- Multiple time zones (for businesses operating across different geographic regions)
